POULTRY SUPPLIES.

SPECIAL PRICES TO THE TRADE.

EGG Food for all kinds of Laying Fowls and young poultry. Will make your hens lay winter and summer; supports them during moulting, and keeps the fowls in the best condition; prevents and cures the common ailments, such as cholera, gapes, and roup,—making poultry one of the most profitable of farm-stock. It is estimated that one-half of the chickens and turkeys hatched out annually die before reaching maturity. When this food is used according to directions, sick and drooping young chickens and turkeys will not be seen about your place. It supplies all the needed materials for forming bones, muscles and feathers. By its effect it strengthens the digestive organs, makes the fowls healthy, and therefore, more profitable.

DARLING'S CHICKEN FEED. A variety of food made from bone, cracked wheat and beef scraps. It is probably a lack of animal food which hinders hens from laying in cold weather; and, to furnish a substitute for the swarms of insects which creep or fly in summer, this preparation has been devised. For fowls largely fed on corn, it proves an agreeable change. Price, 35-pound bag, \$1.25; 100-pound bag, \$2.75. No charge for bags.

DARLING'S POULTRY FOOD. A mixture of bone, wheat, beef scraps, and oyster shells ground and thoroughly mixed together. Price, 50-pound bags, \$1.25.

SUNFLOWER SEED. This is one of the best egg-producing foods known for poultry, keeping them in fine condition. It can be sown any time up to the middle of July. "The Poultry World" says this plant should be grown by every poultry-breeder who has only the facilities to grow a few stalks, which may be planted alongside of fences, and in most any kind of soil.

SUNFLOWER SEED, RUSSIAN MAMMOTH. Striped-seeded. Price 25 cents per quart; \$3.00 per bushel.

SUNFLOWER SEED. Black-seeded. Price, 15 cents per quart; \$3.00 per bushel.

TO CUSTOMERS.

ALL GOODS SHIPPED AT OWNER'S RISK, *unless* previously agreed upon.

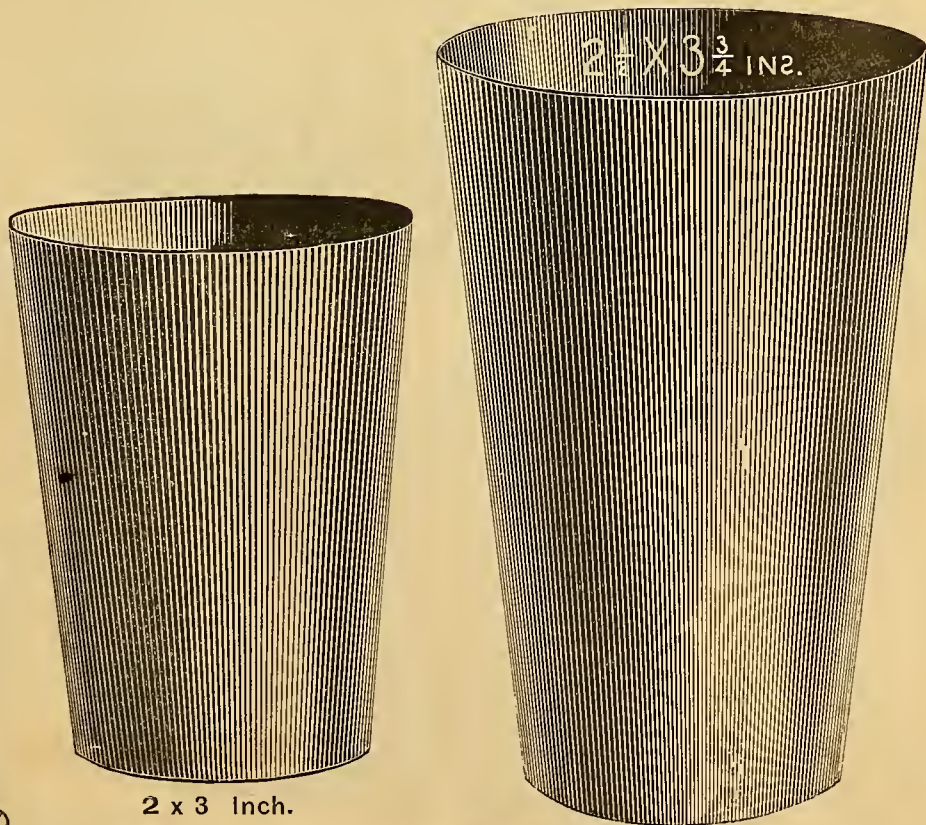

IT is our desire that every customer shall be perfectly satisfied with orders filled by us. To attain that, we give personal attention, so far as it lies in our power, to see that none but first-class goods are shipped, and that every one has his full complement. We would, therefore, particularly request that we be informed if at any time there is cause for dissatisfaction. **All claims must be made within 10 days from arrival of goods, to be allowed,** as after that time, if it be the fault of the transporters, they will pay no attention to our complaints.

Charges for Crates, \$1.00 and \$1.50; Hogsheads, \$1.00; Boxes, 30 to 50 cents, according to size, these charges apply to wholesale orders **only**.

IMPORTANT NOTICE.

RETAIL Customers may order single pieces of any article quoted by the dozen. *Price* will be one-twelfth dozen rates, except where noted, as for example: **Common Flower Pots and Pot Brackets**, which are priced singly by the dozen, hundred, and thousand. When three pieces or over of same article are ordered, a special allowance of ten per cent. will be allowed.

Grass Growing Vases.

These Vases were first introduced in 1884, from Italy, where they have been quite popular as parlor ornaments for a number of years.

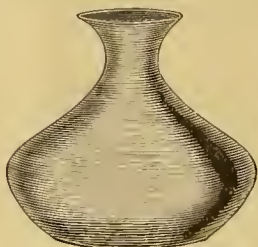

We have now on hand a large stock of these Vases in several unique shapes, which we imported from the originator along with the proper variety of grass to grow on them.

DIRECTIONS.—Soak the vase in water 48 hours; while wet sprinkle the seed on the outside, covering well such portions as you wish to grow; keep in a warm, moist atmosphere.

Always keep the vase filled with water. Care should be taken not to let the water fall on the seed. The seed can be forced by putting the vase under glass, but the glass must be removed as soon as the seed begins to sprout; then give it light and air, but keep it out of sun and draught.
